

# Product Retirement Notice

## Cables to Be Retired

April 30, 2008

PRN #08-01

The following cables will be retired on July 1, 2008 due to inactivity. Please place last time orders no later than May 15, 2008 with a last time ship of September 1, 2008 or until inventory is depleted. If additional units beyond current stock are required, minimum order quantities may apply.

As noted in the Honeywell Imaging & Mobility price book, custom SKUs are not eligible for stock rotations. Once cables are retired, please contact your sales representative for pricing and delivery for any critical requirements.

In addition, during the May/June timeframe, 42206368-01E will begin to ship as 42206431-01E. This is a part number change only with no change in form, fit, function, or pricing.
