

## Product Retirement Notice

---

### 3800LR, LX, LTP, LTPP, PDF, VHD Replaced by 3800g Series – Better Performance. Better Price.

August 7, 2008

PRN #08-03

With improved performance, a smaller form factor and industry-leading reliability, the marketplace has rapidly embraced the 3800g. Therefore, Honeywell Imaging & Mobility has made the decision to begin phasing out the following 3800 models, including custom SKUs:

- 3800LR
- 3800LX
- 3800LTP
- 3800LTPP
- 3800PDF
- 3800VHD (\*does not include 3800VHD/ESD-12E)

This notice serves as formal communication of Honeywell's end-of-life (EOL) strategy worldwide for the models listed above. As communicated in Product Retirement Notice #06-10, all 3800LR-12 and 3800LX-12 models and kits have already been retired in EMEA due to the RoHS directive.

### Replacement Product

To help simplify the transition process, a migration tool (please see attached 3800 Retirement Schedule and Guide for Transition to 3800g) has been developed to help guide you. The tool includes the appropriate 3800g model to transition to as well as last-time buy and last ship dates of the various 3800 models.

If you are purchasing a custom 3800 or need additional help in determining the solution that will best meet your needs, please contact your Honeywell representative.

### Benefits of Upgrading to the 3800g

- Better performance
- 2X the read range
- 4X the tolerance to hand motion
- Improved depth of field
- Greater reliability
- Lower warranty return rates
- Superior ergonomics
- 10% smaller and 20% lighter

**And you get all of this for the same price or less\* than you are paying today!**

*\*Pricing varies by product*

### Timeline

#### Last-time Buy

- Purchase orders for all configurations listed in the migration tool, including custom SKUs, must be received by Honeywell no later than the last-time buy date indicated on the migration tool.
- Orders will be non-cancellable and non-returnable.
- Orders will be fulfilled in the order they are received, according to available quantities.
- Standard warranties will be in effect for all new shipments.

#### Final Stock Rotation

- Final stock rotation requests must be submitted to Honeywell by September 5, 2008 and be received in the US no later than October 17, 2008.

#### Last Ship

- The last ship date is the date indicated on the migration tool or when inventory is depleted.

#### **Service and Support**

Please visit our service website ([http://www.handheld.com/Site.aspx/na/en/services\\_support/](http://www.handheld.com/Site.aspx/na/en/services_support/)) for details on service and support. Honeywell Imaging and Mobility will continue to support the product through the life of all warranties now in place or as long as the required parts are available.

#### **Questions**

If you have any questions regarding this PRN, please contact your Honeywell sales representative.
