## QC800 & QC850 Verifiers – New Power Supplies

### Overview

Recently our supplier for verification wall mount power supplies notified us that they are retiring the wall mount power supplies (QCAC, QCAC220A, and QCAC220B). We will be replacing these power supplies with our standard 9V desktop power supplies (PS-090-2000D-NA, PS-090-2000D-UK, and PS090-2000D-EU). These power supplies are equivalent to the old power supplies except they are desk top power supplies vs. wall mount. The top model numbers will not be changed but the Bills of Materials will be updated for the new power supply.
